

OP0007

19 Types of Fences in Hill End

There are 19 types of fences in Hill End, none of them around my heart.
All my heart wood has been burnt and returned to the earth.

Predominately the fences are timber
or timber and wire
or timber and wire and post.

There is one stone fence.
No breezes pass there.
No shadows pass there
No secrets can escape.
Stone fences protect the heart, but no sun or shadow will pierce

Wood me. Heart wood, Head wood, Tree wood, Fence wood
How many fences can I see?

There are 19 types of fences in Hill End, none of them linked to me.
All are weary, patched and returning to the earth.

Predominately the fences are timber
They protect, define, design me
Or timber and wire
They nail time and wear scars
Or of timber, wire and post
They mark the earth from falling

Fences start a line, fence stop a line of vision.
Perching place for birds and balance point for my commitments

Predominately the fences are timber
or timber and wire
or timber and wire and post.

There are 19 types of fences in Hill End, none of them hidden from me.
Ah, safe passage along a fence line.
Uniformity, order, control – marvellous for me
19 types of fences where everyone can see

Am I inside or outside?

Which fence suits me? Which is my best side?
Put up around my heart, open wooden wide.

There are 19 types of fences in Hill End & all of them linked to me.
